

Sui

For the Sui armchair, London-based studio Raw Edges has looked to the dynamic nature of production in public spaces.

The inviting armchair is enlivened with a swivel and an embracing wooden surface, creating an intriguing niche with its hybrid, multi-purpose use.

When seated, every aspect of the object evokes free movement, with refined yet generous angles, opening for a wide welcome yet private sphere. Sui typifies elegance in a seat made to serve your liking, enhancing any space with the perfect comfort of on-the-go productivity.

Sustainability

All +Halle products are made according to the highest Danish environmental standards. The wood is grown with respect for the land, and the metal parts are manufactured from 99% recyclable steel. All foam and fabric are developed and tested with compliance to Scandinavian standards. Our factories also take great pride in following the Danish working environment act, reassuring all artisans being happy and safe at all times.

Designed by Raw Edges

Founded in 2007, Yael Mer and Shay Alkalay, develop inventive, emotionally aware products, furniture, interiors and installations. The studio, focusing on both industrial production and experimental one-off projects.

Featured details

Swivel seat

Sui is minimal and individual in a warm, convivial way. Friendly details opens-up and add refinement, bringing life to the combination of sturdy metal legs, a swivelling fabric seat, and a tactile wooden surface.

Optional power plug

Summit offers an integrated power plug solution available for all markets around the world. This is an optional feature and not standard.

Create new spaces

The Sui armchair can be combined with one or more fellow Sui's, to create new spaces and ways to use the furniture.
